History[edit]

The Museum was opened by the then Prime Minister the Hon. Paul Keating in 1994, and showcases the history and future of aviation, space technology and the progress in world aviation.[1] The Museum is now closed permanently.[citation needed]

Collection[edit]

The Australian Aviation Museum has on display a mock up Boeing 747-400 which is used as a Movie set. It has been used in films such as Mission: Impossible 2, the Lost (TV series), Foxtel's the Pam Ann Show and many other productions. The Movie Set has a detailed Cockpit with Galleys, First, Business and Economy Seats.

The Museum boasts the world's only Fawcett 120 which was manufactured at Bankstown,[2]
