Operations[edit]

Overview[edit]

El Alamein International Airport is owned and operated by International Airports Company which is KATO investment subsidiary.[4][5] On 1999 a bid for build–operate–transfer (BOT), was won by International Airport Company of 50-year extendable concession. The airport occupies an area of 64 square kilometres (25 sq mi) with a single terminal which can handle 600 passengers per hour.[4][5]

Runways[edit]

El Alamein International Airport has a single runway 3,499 m (11,480 ft), suitable for A380-800 operations.[4]

Airlines and destinations[edit]

As of August 2021, there are no scheduled flights to the airport.
